ABOUT \

GARAGE DOOR LIFT

Garage Door Lift is a U.S.-based garage door supplier providing high-quality residential garage doors, hardware, and accessories for the American market.

Backed by extensive hands-on experience in the garage door industry, we understand what garage door professionals, contractors, builders, and homeowners need most: dependable products, consistent quality, competitive pricing, reliable inventory, and professional support.

Our products are carefully selected and configured for the U.S. market, with a focus on strength, durability, energy efficiency, modern design, and long-term performance.

From traditional steel and insulated garage doors to modern glass, aluminum, and carriage-house designs, Garage Door Lift is committed to providing dependable solutions for every home and project.

GARAGE DOOR LIFT

TRADITIONAL INSULATED PANEL GARAGE DOORS

- Cyclopentane Foaming
- Bonding Layer
- Zinc Coating
- Steel Plate
- Zinc Coating
- Polyester Coating

**GREATER****ENERGY****EFFICIENCY**

27-gauge pre-painted galvanized steel provides exceptional strength and long-lasting durability.

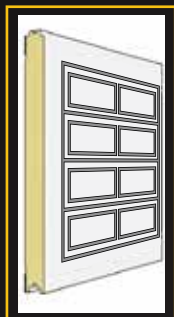

Tongue-and-groove panel construction creates a secure connection for enhanced structural strength, safety, and weather protection.

Available in 1-9/16" or 2" panel thicknesses to meet a variety of insulation and performance needs.

Precision-engineered manufacturing ensures a tight fit with minimal gaps between panel sections.

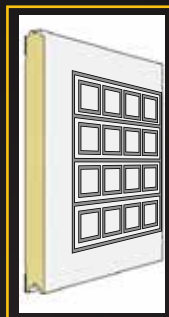

Advanced cyclopentane foam insulation helps improve thermal efficiency, increase panel rigidity, and resist warping over time.
